RESPONSE
for
ELECTRIC
BILLS

CNMEC has a program for you to help your neighbor. You may now “Round-up” your monthly bills to the next dollar and the extra .01 to .99 cents will go into a fund to help members who, due to difficult situations cannot pay their electric bill that month. The Torrance County Project Office will qualify members and administer the vouchers for the funds.

As a member signing up for the program, within a year’s time the most money you would be donating to the fund would be \$11.88. That is if your bill rounds up .99 cents each month. Either way if everyone signed up, the fund would grow fast and individuals who need help can obtain help from this fund.

It is your decision. For more details, please contact CNMEC at 505-832-4483.

I wish to sign up for the CNMEC “CARE Round-Up Program”. I understand that my electric bill will be rounded up to the nearest dollar amount each month. The excess money from this process will be put into the Round-up Fund and dispersed to members who have qualified to receive money to help pay their electric bill. This procedure will continue until I send written authorizations to CNMEC to stop the transaction on my account.
